INFORMATION TECHNOLOGY DEPARTMENT

1st Semester 2023-2024

PROJECT 1

IT 110 – Web Systems and Technologies

Name:		
Section:		

PROJECT RUBRICS:

Core Criteria	Criteria Description	Performance Rating				Rating
eria		Exceeds Expectatio ns	Meets Expectati ons	Needs Improveme nt	No Impleme ntation	90
Creativity	The website design boasts an exceptionally attractive and user-friendly layout, featuring an alluring color scheme that runs consistently throughout. Its design structure and color coordination are uniform across all pages, making for a visually cohesive experience. Furthermore, the responsive design ensures seamless functionality on both web and mobile views, with no discernible design issues or interface errors.	25	20	12	5	
ity	The font style and text on the website maintain a consistent and legible appearance. Navigation links are clearly labeled, consistently positioned, and facilitate effortless movement between pages, enabling readers to easily access related content. They effectively guide users to their expected destinations.	25	20	12	5
